- Red River NPL age groups may have a separate NPL North (Oklahoma & Arkansas) & NPL South (North Texas & North Louisiana) bracket. If so, after each respective North & South bracket completes league play, there will be a 1 game playoff between the North Champion and the South Champion to determine who advances to the appropriate postseason pathway.
- When a separate NPL North bracket in a particular age group is not viable, there will be 1 combined division between North Texas, North Louisiana, Oklahoma & Arkansas. For these brackets only, the team receiving the most points during league play will be League Champion and advance to the appropriate postseason pathway. The team in 2nd place will be the league runner up.

*Advancement referenced above applies to D1 teams
